CHAIRPERSON'S MESSAGE...

Dr. (Mrs.) S.D. Malik

"The world has enough beautiful mountains and meadows, spectacular skies and serene lakes. It has enough lush forests, flowered fields, and sandy beaches. It has plenty of stars and the promise of a new sunrise and sunset every day. What the world needs more of is, people to appreciate and enjoy it."

~ Michael Josephson

"We all know that the real goal of education is not to create people who understands only the language of technology; it should be to also impart a culture of the heart based on spiritual values. Tomorrow's world will be shaped by today's children. In their tender minds it is easy to cultivate universal human values. The teaching of universal spiritual principles and human values should be a standard part of general education." **Mahatma Gandhi - Father of the Nation**, once said. A man is but the product of his thoughts: what he thinks, that he becomes. In the other words, we become what we dream. The future of every nation depends greatly on the dream of the young citizens. That's perhaps why our **late President, Mr. A.P.J. Abdul Kalam**, in all his interactions with students, stressed on a one-point agenda: **Dream, Dream, Dream. Dreams transform into thoughts and thoughts result in Action.** Dear Children- Every fresh start brings with it newness, wonder, enthusiasm, creativity and a desire for excellence. So work hard to give reality to your dreams. The fog may blur the path but the wind will surely blow them all away.

Learn from yesterday, live for today, hope for better tomorrow with a New Year 2021.

Let's toast to yesterday's achievements and tomorrow's bright future.

PRINCIPAL'S MESSAGE...

Tomorrow is a new day full of hope and possibilities.
Keep working hard. We believe in you.

~ Jass A Kevin

Let's proceed in the New Year with a gratitude for this new chance to create new dreams, I feel so fortunate to be part of this community of students, parents, teachers and admin staff, all of whom are united in a desire to provide the very best environment for each individual child. I would like to say "Thank you" for all the kind words and best wishes that have come my way throughout the whole year. It has meant a lot to me. In spite of present sufferings, the flames of hope should not be extinguished. Many thanks to all the parents who have helped out with our smooth functioning of the school during this grim situation of pandemic. It is much appreciated. I would also like to thank our wonderful staff team for their hard work and support throughout the year. Our teachers, who are caring and passionate in their desire to help all students to achieve their goal. Our admin staff - the office staff, who greet all the visitors and complete the unseen admin tasks that help the school for its smooth functioning. Dear students remember, 'Everything that you are going through is preparing you for your future'. May health and happiness follow you throughout the year.

May the 12 months of the New Year be full of new achievements for you.

May the days be filled with eternal happiness for you and your family!

EAT RIGHT, STAY BRIGHT

It is very important to inculcate healthy eating habits among children from an early age, to ensure a healthier and happier future for them. However, it is not easy to make children eat healthy food the way adults do. Greens and salads might not excite them as much as they excite the adults! Healthy recipes for kids should include a good combination of energy, proteins, calcium and iron to support their normal growing phase. Keeping this in mind a Healthy Recipe Competition, was held for the parents on 31st December. The idea was to focus on to make the treats for children nutritious. To add more family fun to it, this was coupled with the Best Dinner Display, Roti rolling and Master Chef activities. The presentation of food and family bonding were highlighted, as the children along with their families enjoyed nutritious and scrumptious meals.

Amazing Cleaning Life Hacks:

Cleaning up is tedious and not very pleasant. However, professionals know lots of secrets to make any mess go away quickly and easily.

- Deter the garbage disposal with lemons or limes. To clean and deodorize garbage disposals, use a fresh lemon or lime. Cut the citrus fruit into quarters and while you have the water running, put the lemon pieces one by one into the disposal.
- Remove carpet stains with vodka. Rubbing alcohol, clear vodka (which has a lot of cleaning benefits!) and even white wine can be used for this cleaning hack. A better way to clean: Use vodka.
- Eliminate water stains with shaving cream. "Apply the shaving cream and let it sit for 15 minutes, then wipe off," Shepard says.
- Use olive oil to clean stainless steel. Another effective chemical-free cleaner is none other than olive oil. It's great for cleaning stainless steel appliances and cookware. Putting some a few drops of oil on a chamois and then lightly rubbing soiled areas.
- Clean windows with Vinegar. Vinegar is also great glass cleaner with the addition of a little water.
